Helpful

Eagle Viewing

and Driving Tips

Eagle Viewing

- To see eagles up close, use a telescope, binoculars or a telephoto lens. Keep noise low and your movements slow.
- Whenever possible, stay in your car and use it as a blind from which to photograph the eagles.
- Stay away from the river's edge and gravel bars where eagles are feeding, especially between 7 and 11 a.m.
- Most of the river frontage is privately owned. Use public areas along the river and be courteous to local land owners. Do not walk across private property.

Driving Tips

- Adjust speed according to traffic and weather.
- Watch for pedestrians: people often cross the roadways during eagle watching season.
- Carry winter emergency equipment: blanket, flashlight, jumper cables, snow shovel, additional winter clothing, and abrasive material (e.g. cat litter, sand).
- Be aware that cell phone reception can be unreliable in eastern Skagit County.
